## OUTDOOR RUGS - CARE INSTRUCTIONS

### HOW TO CLEAN YOUR WILLIAM YEOWARD OUTDOOR RUG

Here are our suggestions:

- Shake Shake Shake. To get rid of dirt, crumbs or soil we suggest lifting your rug and shaking it. We know a large outdoor rug won't be easy to lift and therefore we recommend hanging it over a fence or clothesline and then brushing off the debris that way.
- Vacuum. Another way to keep your indoor outdoor rug clean is by using your vacuum cleaner. We recommend vacuuming on both sides for the best results.
- Brush. For a quicker solution, using a brush to sweep any crumbs or dirt away can work a treat.

To help keep your outdoor rug looking as good as new, we suggest cleaning both sides every few weeks to help keep your rug looking as good as new all summer long.

### HOW TO WASH YOUR WILLIAM YEOWARD OUTDOOR RUG

Simply use a garden hose to get rid of any dirt, mud or spillages. Good news is you won't need any soap!

- First off, remove any debris from your rug by vacuuming or brushing it with a soft brush.
- Next, use a hose to simply wash down your outdoor rug.
- Once cleaned, roll your rug up tight and stand it upright for a few minutes to get rid of any excess water.
- Finally, we recommend laying your rug flat in the sunshine to allow it to dry fully.

### HOW TO DRY YOUR WILLIAM YEOWARD OUTDOOR RUG

- Lay your rug down flat in the sunshine or hang it over a fence or balcony balustrade.
- Once the top is dry, we suggest flipping it over to dry out the bottom.
- You will know your rug is fully dry once you can no longer feel any moisture.

### HOW TO STORE YOUR WILLIAM YEOWARD OUTDOOR RUG

Once summer is over and the colder weather is moving in, your outdoor rug can be stored indoors in a cool, dry place ready to be used again next year.

Or, why put your rug away when you can use it indoors? An outdoor rug is perfect for use in kitchens, under dining tables, in playrooms or any other high traffic area such as hallways. After all, it would be such a shame to put away your rug for half of the year. Instead, rehome it indoors to show it off all year round.
