

FLAVIA - BLUES 250X350 RUG

£1,795.00**Description**

The greyish blues of the recycled denim contrast wonderfully with the pure neutral wool ground. This contemporary yet luxurious rug is rich in texture, while the free flowing nature of its pattern lends it great character and versatility.

A bit of WY team member endorsement by Tabitha-Rose - our Retail Design Consultant: "I've given this a lot of thought because there really is so much I adore from William Yeoward but for me it's got to be the Flavia Blues rug. I love the overall simplicity of this rug as it goes with absolutely everything thanks to its natural woollen ground. The greyish blues seen in the almost floral designs is made up of tiny tassels of recycled denim that gives it a real edge. I have paired it with our William Yeoward "Grey Blue" paint colour for a match made in heaven. It really is very cool, I love it."
