

PILA CHAIR

Description

The Pila Chair is part of our Benchmade Upholstery collection, which is our range of more classic and formal designs, using traditional upholstery techniques and methods. Made by hand in England, each frame is constructed of sustainable European hardwood with Dowel screws and glued joints. The interiors are traditionally hand webbed and sprung using British products and fillings. Where appropriate legs are polished and finished with handmade castors and individually nail head trimmed. Each piece of our upholstery is custom made for the individual client with their choice of wood and fabric. For more information about this piece please email us on enquiries@williamyeoward.com, we'd be happy to help.
